

How can I allow families to customize their low balance notification setting?

Note: Families can have the option to customize their balance notification settings. Schools must enable this option. This allows families to receive notice of their low family balance per their preferences. This will show you how to enable that function.

To enable this option for families, go to EduTrak Software District Site>Families tab>Family Website Settings.

The Disallow Custom Balance Override box must **NOT** be checked for families to have this option available to them.

Family Website Settings

To make changes, complete the form below and click "Save".

Disclaimers:

While we will do our best to deliver notifications as close to the requested time as possible, the actual delivery time may vary depending on the current server load.

Families with a balance of exactly 0 will automatically be excluded from receiving notifications.
